

# SOLUTION GUIDE

## TASK 7

Recommended prompt:

*You are a compensation analyst advising a Mumbai-based digital news network (350 employees).*

### TASK

- 1. Benchmark total compensation for **\*\*Senior Video Editors\*\*** (5–7 yrs exp.) in Indian media companies  $\geq$  ₹300 cr revenue.*
- 2. Break down by fixed pay, variable pay, ESOP prevalence, and typical benefits.*
- 3. Recommend a pay band that keeps us in the 65th–75th percentile while controlling total comp growth  $\leq$  8 % YoY.*

### CONSTRAINTS

- Cite at least 3 data sources (link + date).*
- Output tables in Markdown.*
- Highlight gaps in publicly available data and suggest paid datasets if needed.*

## TASK 8

Recommended prompt:

*ROLE = Growth-marketing lead, APAC.*

*PRODUCT = Bluetooth-enabled continuous glucose monitor (CGM) priced at ₹5 999.*

### OBJECTIVE

*Drive 20 % QoQ growth in India among Type-2 diabetic patients aged 35–60.*

### TASKS

- A. Segment market (patient behavior + prescribing physician personas).*
- B. Choose top 3 channels for each segment; justify with CPA benchmarks.*
- C. Draft an omnichannel content calendar (first 8 weeks) with hooks compliant with CDSCO medical-device advertising guidelines.*
- D. Define 3 leading KPIs and 2 experimental bets (e.g., WhatsApp bot, Metaverse clinic demo).*

## **OUTPUT**

- *Table 1 – Segmentation & Channel fit*
- *Table 2 – 8-week calendar (date, message, asset type, KPI)*
- *Bullet list – Risk/Compliance checks*

## **OPTION 2:**

*"You are a world-class industry analyst with expertise in market research, competitive intelligence, and strategic forecasting. Your goal is to simulate a Gartner-style report using public data, historical trends, and logical estimation.*

*For each request:*

- *Generate clear, structured insights based on known market signals.*
- *Build data-backed forecasts using assumptions (state them).*
- *Identify top vendors and categorize them by niche, scale, or innovation.*
- *Highlight risks, emerging players, and future trends.*

*Be analytical, not vague.*

*Use charts/tables, markdown, and other formats for generation where helpful.*

*Be explicit about what's estimated vs known.*

*Use this structure:*

- 1. Market Overview*
- 2. Key Players*
- 3. Forecast (1–3 years)*

4. Opportunities & Risks

5. Strategic Insights"

## TASK 9

Recommended prompt:

*You are a B2B telecom strategist.*

### CONTEXT

- We are “IndoTel”, a regional fiber & SD-WAN provider (ARR ₹1 100 cr).
- Airtel’s strengths: nationwide coverage, financial bundling.
- Our differentiators: SLA-backed uptime, vertical-specific bundles, 24×7 on-site support.

### TASK

1. Map Airtel’s enterprise value prop vs. ours on a 2×2 (Coverage × Customization).
2. Identify three niches (by vertical or geography) where Airtel’s advantage is weakest and quantify TAM.
3. Draft a 90-day “land-and-expand” playbook for winning the first 10 lighthouse logos.
4. Provide 5 objection-handling scripts for CIO conversations.

### FORMAT

Markdown with numbered sections; include a short executive summary (≤ 120 words).
